Message from the CEO

Strong Results Despite Global and Market Turmoil

We entered 2019 with our eyes wide open and a hawkish view to the global economy, domestic economic slowdown and continued house price pressures. All of these factors were present last year, but acted differently than the markets may have expected. The global economy continued to perform well regardless of unique pressures. Domestically, our markets exceeded expectations, with real estate rebounding and in some areas, outperforming respective forecasts.

Here at Peoples Group, we are focused on what is important to our employees and our customers: delivering great service; investing in the development of our people; and enlarging our footprint and product offerings. Our success stems from the collaborative contribution of our employees, empowered by leadership, to thrive in a strength-based organization that executes with passion.

Our corporate family was expanded by obtaining a Schedule 1 Bank Charter and we established Peoples Bank of Canada, which opened with a 'soft launch' in late 2019.

2019 was a record year for the group, and we are poised to continue our growth trajectory with a great team and a rock-solid foundation into 2020 and beyond.

The pandemic coming to Canada in the first quarter of 2020 added a new reality to the economy, including the financial industry. We continue to look for opportunities to diversify and grow our business, while maintaining a conservative risk profile. We are mindful of consumer debt levels, while looking to offer new products and services in both the Trust Company and the Bank.

Grant MacKenzie
PRESIDENT AND
CHIEF EXECUTIVE OFFICER

"We are poised to continue our growth trajectory with a great team and a rock-solid foundation ..."

Operations Review

A Record Year with Exceptional Growth

Peoples Group has solidified the outcomes of the previous year across all business lines.

The Peoples Trust business, which includes Commercial Mortgages, Retail Lending and Deposit Services, demonstrated another year of record lending volume supported by strong deposit growth. Our multiple funding sources come from stable deposits, a warehouse line facility and strategic securitization activities, delivered through robust financial partners. Together with our business partners, we continue to expand into consumer lending and specialty financial services.

In 2019 we received a banking license from the Office of the Superintendent of Financial Institutions and commenced Peoples Bank, a new initiative which will start offering our consumer products under a new brand going forward, based on our evolving go-to-market strategy.

In the Canadian payments issuing business, we remain the dominant provider in prepaid cards. Our experienced payments team continues to build a successful portfolio of financial technology (fintech) companies, enabling their solutions with financial services.

The global pandemic in early 2020 created uncertainty in the market, with challenges never experienced before. Our exceptional capabilities give us the confidence to face unexpected situations as they arise.

We're grateful to be viewed as being creative collaborators by our entrepreneurial partners, as this is one of Peoples Group's hallmark core competences.

Waheed Hirji

Mortgage Lending

Lending Alternatives

Peoples Bank is one of Canada's leading mortgage lenders offering an alternative for customers with concerns about income qualification or credit.

We use a common-sense approach to lending that provides customers a lending alternative from traditional banks.

For example, we may have options for:

- Small business owners having difficulty verifying enough income to qualify elsewhere;
- New immigrants with limited or no credit history in Canada;
- Homeowners with insufficient income verification to meet the requirements of a standard mortgage; and
- Canadians with previous credit problems that are now resolved, including discharged bankruptcies.

This activity is supported by three regional offices located in Vancouver (servicing British Columbia), Calgary (servicing Alberta, Saskatchewan and Manitoba) and Toronto (servicing Ontario, Quebec and Eastern Canada).

Our program focuses primarily on CMHC insured multi-family lending but also includes conventional mortgage financing for development projects, commercial building repositioning and investment acquisitions of most commercial real estate asset classes.

Commercial Lending

CMHC Mortgage Lending

Peoples Trust, part of Peoples Group, is actively engaged in CMHC insured multi-family mortgage financing. All three regional offices have extensive experience in the underwriting and placement of CMHC loans on rental apartment buildings, seniors' residential facilities and non-profit affordable housing projects. Our long-term relationship with CMHC underwriters helps us provide valuable insight to clients on the requirements and process involved in getting loan insurance approvals. This relationship is backed by a very robust loan securitization program, tied to the CMHC Canada Mortgage Bond (CMB) Program, that allows Peoples Group to be able to offer very competitive five and ten-year term interest rates to clients, with odd lot terms also available. This program extends to any geographic location where CMHC will participate.

Conventional Commercial Mortgages

Timely, creative, customized underwriting of customer mortgage requirements is the primary mission of our commercial uninsured mortgage program. Commercial real estate is always facing headwinds from economic, regulatory or market specific factors. Our very experienced underwriters in each regional office have direct local knowledge of the challenges customers are facing. With the support of a streamlined credit approval process, they can craft creative and competitively priced loan structures that assist customers in achieving their goals. This program includes construction financing, bridge financing for property acquisitions and renovation programs and term financing for longer-term real estate investments.

2019 Financial Results

Record Results as Strategy Gains Traction

2019 was another year of tremendous results for Peoples Group. We continued to record robust growth in our single and multi-family lending segments and, in alignment with our strategy, we are particularly active in newer business segments, including our payment card and merchant payment services entities. Of particular note, our diversification goals have significantly ramped up in the retail financing space, where partnership-based origination channels have dramatically moved us forward. The opening of our new Peoples Bank of Canada will continue that trajectory.

Given the uncertain economic backdrop, the impacts of COVID-19 and the continuing energy sector challenges, Peoples Group strategy reminds us to continue to adhere to our core principal risk management practices, even as we move towards improving and expanding client services and products. We also looked inward to improve operating efficiencies including restructuring related party management expenses to be more aligned to our industry peers and we continue to identify and implement beneficial system and process improvements.

As a result, our Assets Under Administration grew over \$2 billion to \$13.6 billion at year-end, our Net Income correspondingly increased from \$25.4 million in 2018 to a record \$44.8 million for 2019 and our Regulatory Capital Ratio strengthened by nearly 2% to end the year at 17.3%.
